SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Sir:

Pursuant to 37 C.F.R. §§ 1.56, 1.97 and 1.98, Applicants wish to call to the attention of the Examiner the enclosed "Supplemental List of References Cited by Applicants." The right is reserved to antedate any item in accordance with standard procedure.

Citation of the documents is not to be construed as an admission that the documents are necessarily prior art with respect to the instant invention. This submission is understood to complement the results of the Examiner's own independent search. Citation of the documents shall not be construed as a representation that a search has been made or that the cited items are inclusive of all the relevant and material citations that may be available publicly. Any NCBI report included herein may not have an accurate date for prior art purposes. Some of the documents may have markings thereon. No significance is meant to be attached to the markings.

Applicants respectfully request that the cited documents be considered by the Examiner and that an initialed copy of the Supplemental List of References Cited by Applicants be returned to Applicants.

Applicants respectfully submit that the cited documents are voluminous foreign patent publications which would be burdensome both for Applicants to print and mail, and for the USPTO to receive, store and handle. Therefore, in the interest of reducing the burden on both Applicants and the USPTO, Applicants submit herewith a CD-R disk containing Adobe Acrobat (.pdf) files downloaded

from Micropat containing the entirety of the cited foreign applications. In addition, it is noted that Examiner Cecilia Tsang of TC 1600 assured Diana Hamlet-Cox of Incyte Genomics, Inc., that the USPTO has electronic access to published PCT applications (see M.P.E.P. § 901.05(c)), so additional paper copies of such references would be duplicative.

The cited foreign applications are listed below. The foreign applications comprise the indicated number of pages, and where known, the SEQ ID NO: of the sequence which is believed to be of interest in examination of the instant application is indicated.

<u>PCT Application</u>	<u>No. Pages</u>	<u>SEQ ID NO: of interest</u>
EP 1 130 094	1389 pages	SEQ ID NO: 3450
WO 01/07459	601 pages	
WO 01/32910	598 pages	SEQ ID NO: 69; SEQ ID NO: 109; SEQ ID NO: 150
WO 00/55350	2352 pages	SEQ ID NO: 105; SEQ ID NO: 947
WO 00/73801	799 pages	SEQ ID NO: 615

It is believed that this disclosure complies with 37 CFR §§ 1.56, 1.97 and 1.98 and the Manual of Patent Examining Procedure § 609. If for some reason the Examiner considers otherwise, please telephone the undersigned.

Applicants believe that no fee is due with this paper. However, if the Commissioner determines that a fee is necessary, the Commissioner is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to Deposit Account No. 09-0108.

If there are any questions regarding the above, the Examiner is invited to call the undersigned.

Respectfully submitted,

INCYTE GENOMICS, INC.
